During submission an incorrect Fig. 5 was uploaded. The legends were given with incorrect units: The correct unit is “m”, not “mm”. Please find the correct figure below.

Please also note the new email address for the corresponding author: Wenli Wang (wendypge@gmail.com).

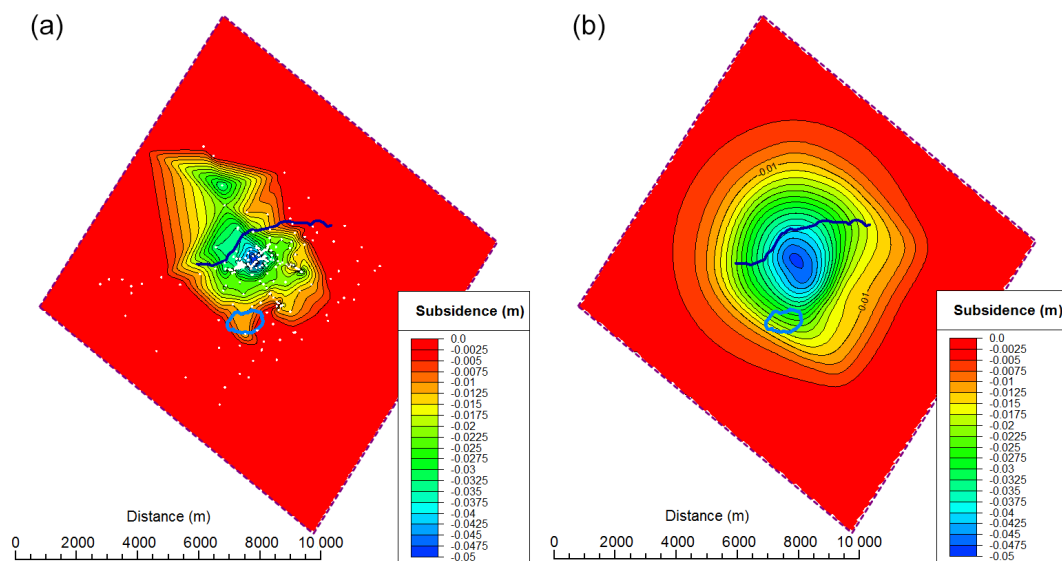

Figure 5. Comparison of surface deformation between measured data (a) and history match result (b) for 2009–2013 – white dots in the left plot show the locations of the measurement points.
